

## MASONRY DRILL BITS

- SDS Plus
- SDS plus-SDS= Spline Drive Shank.
- Chisel bit penetrates and directs concrete dust into multi flute spiral.
- Bright finish.

- SDS Max
- SDS= Spline Drive Shank.
- 4 X 90 degree head geometry to improve durability and speed.
- Chisel bit penetrates and directs concrete dust into multi flute spiral.
- Bright finish.

- Straight/Round Shank
- Self centering tip for spot drilling.
- Chisel bit penetrates and directs concrete dust into multi flute spiral.
- Large volume flute for increased dust extraction.

- SDS= Spline Drive Shank.
- Chisel bit penetrates and directs concrete dust into large volume flute.
- Bright finish.
