# Stud Welding Support

## New & Used Equipment

We are a stocking distributor for several leading stud welding equipment manufacturers. We also have an extensive inventory of previously owned, refurbished equipment available for purchase. Please allow our expertise in the industry to help you choose the best fit for your stud welding requirements.

## Rental Equipment

Hybroco Sales, Inc. has rental equipment for any stud welding application. Whether your need is in house or in the field, equipment can be delivered ready to use for your projects. Our rental fleet is capable of welding studs/pins up to 1-1/4" in diameter.

## Service & Repair

In addition to a complete inventory of parts and accessories, we have the know-how to repair your stud welder. Repairs can be performed at your

location, on the jobsite or at our facility, whichever fits your needs. Rental equipment is available to limit your downtime while your repairs are being completed. On site emergency repair service with back up equipment can also be provided.

## Training & Certification

Did you know the majority of stud welding related problems are due to improper set-up, application design or operator error? We have provided

training to our customers since our inception over 30 years ago. We pride ourselves with the knowledge that we have trained multiple generations in the various nuances of stud welding. Tap into our experience and let us help educate and train your personnel.
