

## “J” Hooks

J hooks are most commonly used to secure insulation to wire mesh. After the J hook is in place, insulation is impaled on the hook and secured with an insulation washer (speed clip).

- Mild steel and stainless steel are the industry's standard materials.
- Other materials available upon request.
- Hooks can be made with a sharp or blunt tip.

Specifications		
Material	Gauge Diameter	Length
Mild Steel	12-14 gauge	3"-16"
Stainless Steel	12-14 gauge	3"-16"
Aluminum	12-14 gauge	3"-16"
